Staff: Herlim Li and Stephanie Goldman

1. A&P Conference March 2022

Rethinking AB 705 in the Context of Students of Color

Planning an online workshop instead of having an A&P presentation

Offer a counter weight to the Chancellor's office and the Campaign for College Opportunity and organizing students and faculty to help students of color

Chancellor's Office wants to work with FACCC on new bill instead of the Campaign for College Opportunity

We need to bring an analysis of how legislation is disadvantaging students of color under the guise of equity.

We can use info to oppose any future bills or amend current one

We need to figure out what is our ask?

2. Community Agreements

- To be discussed at the next January 28th meeting

3. Land Acknowledgement

We need to look at this in a serious manner and not just rush through it

We need to have a draft put together
