Attendees: Carlos Maruri, Kandace Knudson, Cynthia Mosqueda, Shaaron Vogel, Berta Harris, Rene Lozano, Teresa Aldredge, Sara Nieves Lucas, Efren Rangel, Maria Garcia

Absent: Joan Thompson

Staff: Ashley Hamilton, Lidia Stoian

Future Possible Events

BLM Call to Action

- Do we create something new or should we just endorse what folks are doing?
- Equity Funding Formula: What can FACCC do about re-evaluating the funds that need to be redirected to black students.
- Promise Program: black students are not getting the PP, is this a conversation that should be held at the state level and facilitated by FACCC?
- The FACCC legislative committee and policy committee could be part of this conversation to help our committee come up with a plan. It's something that legislators and the Chancellor's office needs to provide guidance
- Tool kit for how to evaluate equity gaps.
- Our committee charge: without guidance on how equity funding is distributed on campuses is very difficult to focus on PD training. We want a conversation with legislators and the Chancellor's office to come up with a plan and put money behind it. We put money where our values are regardless of the circumstances. Where are institutions putting their dollars? This may be a policy issue.
- There isn't a lack of PD on BLM however there is lack of funding to support these efforts.
- A&P conference should have a session on tapping into folks that represent our system, invite black faculty and students to do the session.
- Berta will look at the board, and committee goals and get back to our committee on references pertinent to this conversation.

Transfer Webinar: meet the author

- Author Discussion: it won't be a counselors update but we would hear about transfer and hear that university folks are on the same page as cc folks.

- This conversation would be about how important transfer students are and how much value they add to the classroom.

The Future of Distance Education Symposium

- This should happen during Fall, maybe October 23, 11am - 1pm
- We will wait until after the October 9 ASCCC event to create the panel.

Next Meeting: October 16 at 11am
