

How will you benefit from a FACCC membership?

Professional Development

FACCC delivers relevant professional learning opportunities specifically designed to meet your needs and **take your leadership to the next level.** Our conferences and workshops connect you with proven best practices and ideas that you can implement on your campus. Members receive a discount at some events.

Advocacy

FACCC takes an integrated approach to advocacy, combining expert analysis, grassroots activity, direct lobbying, persuasive communications, and strategic campaign work, all in an effort to serve one constituency, California Community Colleges faculty. In furtherance of the faculty's agenda - and in support of the students we serve - FACCC has also been lauded for its tremendous achievements on behalf of all who work and support the California Community Colleges.

Networking & Mentorship

As a FACCC member, you are part of a statewide association with members from all across California. Having direct **relationships with faculty leaders across the state** empowers your leadership and ability to achieve success at the bargaining table, in campus committees, and at board of trustee meetings. There has never been a more critical time to build your professional network, and we offer a variety of avenues and opportunities to do that.

Leadership Opportunities

Expand your leadership reach by serving on a FACCC committee. You'll not only sharpen your skills as a leader, but also **make new professional connections that will serve you well** moving forward.

The Weekly

A 24/7 news cycle can be difficult to keep up with. FACCC tracks and analyzes the news and latest developments that stand to affect higher education. At the end of the week, we distill it down into **a weekly newsletter sent to you** each Saturday morning.

Access to our FACCC Online Community

Get instant access to our online community where you have the ability to connect with members from all over the state, participate in discussion forums, download FACCC resources, re-watch previous webinar events, and register for upcoming events.
